

# CHIROMEGA 654 SOLO

- Basic model equipped by:**
- Midwest hose for light
  - air turbine handpiece
  - hose for electric micromotor
  - triple syringe
  - halogen operating light
  - saliva ejector
  - ceramic cuspidor
  - autonomous water

- Optional:**
- pantographic arm
  - additional hose
  - ultrasonic scaler
  - cautery
  - upper /whip-like/ guide of hoses
  - oilless compressor built-in
  - sensor control panel
  - intraoral camera
  - surgical suction unit

# MINIDENT 70

Device allows performance of intraoral and occlusive dental skiagraphy. Easy movable supporting balanced arms allows fast and exact adjusting of X-ray head. Operating staff is effectively protected against harm full influence of leakage or unused radiation. Device allows working with films or with computer visiography.

**Technical data**

Nominal voltage	230V, 50-60 Hz
Maximal input	1600 VA
Maximal power	560 W
Type of the lamp	OX 70 P
Focal spot	0,8x0,8 mm
Nominal parameters	70 kV-8 mA
Break between shots	20 s
Field/FSD	Ø 60/200 mm
Filtration	ekv 2.1 mm/A1
Weight	55 kg

CE 1293

The product complies with the European Directive MDD 93/42/ECC relating to the medical devices safety

# CHIROMEGA 654 DUET

# CHIROMEGA 654 NiKa

## CHIROMEGA 654 Duet

- Basic model equipped by:**
- antiresing chair 652.2 with 5 memories
  - Midwest hose for light air turbine handpiece
  - hose for electric micromotor
  - triple syringe
  - halogen operating lamp with double intensity
  - saliva ejector
  - turning ceramic cuspidor
  - autonomous water
  - pantographic arm
  - sensor control panel
  - left armrest

- Optional:**
- additional hose
  - ultrasonic scaler
  - cautery
  - upper guide with locking in working position
  - surgical suction unit
  - assistant panel with sensor control
  - long arm of assistant panel
  - intraoral camera
  - amalgam separator
  - right tilting armrest
  - left tilting armrest
  - microdrive speed control pedal

## CHIROMEGA 654

- Basic model equipped by:**
- antiresing chair 652.2 with 5 memories
  - Midwest hose for light air turbine handpiece
  - triple syringe
  - halogen operating lamp with double intensity
  - saliva ejector
  - ceramic cuspidor
  - autonomous water
  - pantographic arm
  - sensor control panel
  - left armrest

- Optional:**
- additional hose
  - ultrasonic scaler
  - cautery
  - upper /whip-like/ guide of hoses
  - surgical suction unit
  - assistant panel
  - right tilting armrest
  - double intensity of light
  - microdrive speed control pedal

# CHIROMEGA 654 NK

## CHIROMEGA 654 NK

- Basic model equipped by:**
- chair 652 type
  - control of chair by switches on backrest
  - Midwest hose for light air turbine handpiece
  - hose for electric micromotor
  - triple syringe
  - halogen operating lamp
  - saliva ejector
  - ceramic cuspidor
  - autonomous water
  - left armrest

- Optional:**
- additional hose
  - ultrasonic scaler
  - cautery
  - pantographic arm

Standart pedal    Microdrive speed control pedal    Assistant panel Nika    Assistant panel Duet    Upper guide - not locking
